

CAPABILITY STATEMENT

Secure AI • Data • Cloud • Cybersecurity for Government Missions

PEOPLE
TECHNOLOGY
MISSION
TOGETHER

KrossPoint Technologies LLC helps government and regulated organizations modernize mission-critical systems through secure AI, data, cloud, cybersecurity, and application modernization. We combine architecture-led delivery with hands-on implementation and deep public-health expertise to modernize securely without disrupting mission operations.

CORPORATE INFORMATION	WHY KROSSPOINT
Offeror: KrossPoint Technologies LLC	 Architecture + Implementation Strategy through hands-on implementation.
UEI: YZTABN5JBPA5	 Secure by Design NIST-aligned, Zero Trust, identity, logging, and compliance engineering.
Primary NAICS: 541512	 Modernize Without Disruption APIs, containers, automation, and coexistence patterns.
Additional NAICS: 513210, 518210, 541511, 541519, 541611, 541690, 541715, 541715	 Public Health Expertise Disease surveillance, NBS modernization, interoperability, and mission data.
Business Size: Small Business	
Website: www.krosspoint.com	
Contact: contact@krosspoint.com 571-354-7146	

CORE CAPABILITIES				PEOPLE SOLUTIONS LASTING IMPACT
 AI & Application Engineering Secure AI, agentic systems, RAG, APIs, custom software, and application modernization.	 Data & Interoperability Enterprise data architecture, HL7/FHIR, APIs, event-driven integration, analytics, and modernization.	 Cloud & Platform Engineering AWS/Azure, Kubernetes, landing zones, IaC, DevSecOps, automation, and hybrid platforms.	 Cybersecurity & Continuous Compliance NIST/FISMA/CJIS/CMMC-aligned architecture, IAM, Zero Trust, policy-as-code, and compliance automation.	
 Mission Specialization: Public Health & Government Health Disease surveillance • NBS modernization • eCR / case notification • interoperability • analytics				

STRUCTURED OFFERINGS								
	Public Health & NBS Modernization	>		Secure AI & Agentic Systems	>		Application & Digital Modernization	>
	Data & Interoperability Modernization	>		Cloud & Platform Modernization	>		Cybersecurity & Continuous Compliance	>
	Enterprise Architecture & Advisory		Discovery, current/target-state architecture, modernization roadmaps, reference architectures, data strategy, and governance.					

 **INNOVATION / PRODUCTS & IP**

**TensorArc™**
Secure AI innovation and accelerators from KrossPoint Technologies.

 **Secure AI Platform**

 **AI Landing Zone & Agent Framework**

 **Mission Accelerators**

SELECTED EXPERIENCE		
Program	Experience Type	Relevant Scope
CDC – NBS Modernization	KrossPoint Past Performance	Cloud, application modernization, DevSecOps, security, data, public-health modernization
State / Local Public Health	KrossPoint Past Performance	Public-health cloud modernization, deployment, interoperability, data integration, and operational support
GSA – SAM.gov / PPMS	Leadership Experience	Federal platform and application modernization, cloud engineering, DevSecOps, and data
NLRB – Intranet Modernization	Leadership Experience	Enterprise intranet modernization, cloud engineering, application architecture, and delivery
BLS – Enterprise Architecture & Data Strategy	Leadership Experience	EA discovery, target-state architecture, reusable patterns, and enterprise data-platform strategy
